Tools: IntelliJ, Android Studio, Linux, Heroku, Azure, Maven, npm, Git, GitHub, Trello

Certified ScrumMaster (CSM) by Scrum Alliance, 2019

EXPERIENCE

Software Development Mentor – **Green River College**, Auburn, WA   June 2020 – Present

Mentoring more than 30 students in topics such as Java, JavaScript, Python, Full-Stack Development, and CS Fundamentals.

Working one-on-one with students to identify and improve on weaknesses while offering motivational support when needed.

Successfully analyzing, testing, and debugging over 100 lines of code per day, providing feedback to improve coding standards.

Application Developer Intern – **GoalMine**, Seattle, WA   April 2020 – June 2020

Built a mobile app for parents to quickly track their special needs student's educational progress, raising engagement by 30%.

Deployed a RESTful API in Azure using Node.js and Express, to provide endpoints that accessed an existing MS SQL database.

Rapidly developed a cross-platform (iOS and Android) mobile app using Flutter that utilized the API endpoints created.

Software Developer Intern – **Green River College**, Auburn, WA   January 2020 – April 2020

Developed a tool for the Language Department that visualizes student success in relation to the usage of tutoring resources.

The newly interpolated data drove a 50% increase in funding, allowing more resources to be diverted toward student success.

Successfully employed Agile to develop a React front-end, accessing a back-end API built with Node.js, Express, and MongoDB.

Software Developer Intern – **NAMI Washington**, Seattle, WA   September 2019 – January 2020

Transferred an in-person application process to an online portal and provided an admin dashboard to analyze applicant data.

Being used to process and manage over 500 yearly applications while reducing employee workloads by as much as 25%.

Led development in an Agile team using HTML/CSS, JavaScript, jQuery, Charts.js, Ajax, PHP, MySQL, and FatFree MVC.
